

Wing Nut Clamp

Introduction

Quick release flange is a kind of convenient fastener for rapid connection of vacuum pipes, as the clamp connection ensures the easy installation and good sealing of the pipeline, the use of quick release flange is increasingly wider and deeper.

Using aluminum alloy as material, our quick release flange is made by die casting, and then it is electrolytic polished before assembling, which guarantee the high quality of it.

Specification

Model	A	B	C
KF10	45	61	16
KF16	45	61	16
KF25	55	72	16
KF40	70	90	18
KF50	97	123	24
